ADDRESS

(Continued from page 9)

and Health with Key to the Scriptures," now widely distributed among the civilized nations of the earth. This book is proving itself to be a potent factor in the elevation of the human race, and is literally making history by remodeling the lives and careers of multitudes.

Results of Christian Science.

But what are some of the chief results of Christian Science, what the principal reasons for its hold upon the gratitude of mankind?

First of all, its teachings obliterate any supposed reasons for pessimism. If it were really true, as public opinion has been only too prone to believe during the passing centuries, that God, the First Cause and basis Principle, is the author of evil as well as of good, then despair would be justified, for the struggle against evil would be hopeless. If evil could point to omnipotence as its author, it could not be successfully opposed, for it would have divine sanction. In that case, too, it would be but natural that there should be hopeless sinners and sick persons who are incurable. It is difficult to understand what the Christian gospel, or "good news," could mean under such circumstances, or wherein its usefulness could lie, if it inculcated such views; but when the teachings of Christian Science concerning the goodness of God are understood, the curtain is lifted and the student perceives clearly, for the first time, that Christianity, when scientifically understood and applied, brings complete salvation to humanity, including salvation from what is called physical health. But first must come the correct estimate of "the things of the Spirit," the theology of Jesus and its meaning, as interpreted by Christian Science; then only can they follow the works which Jesus commanded his followers to do, which he did himself, which his disciples and apostles and the Christians of the early church did, and which those Christians who understand his message are doing today.

Hope for All.

Christian Science proves that there is hope for all. It reassures even those who have been made to con-

It comes to the doomed and abandoned, and by its unanswerable logic convinces them, first of all, that their situation is not as bad as it seems; that evil is not as powerful as it pretends; that it has no authorization from on high, no legal status, no rights, no legitimacy; that, on the contrary, man's real origin in God justifies his reasonable expectation that good shall prevail; that peace, harmony, health and sturdiness shall be his portion; that strength, sweetness and beauty shall be his normal inheritance from a merciful Father, and that Love which passeth understanding shall eventually crown all his right endeavors with success.

Christian Science gives ground for this natural hope, but it does more than that. It instructs men in the rudiments of true faith and shows them why this hope of salvation is justified by metaphysical facts. Faith then readily ripens into understanding, as the student makes practical application of the letter. From the very start new vistas of grand possibilities cheer the learner on his way, and, more important still, the actual proof of God's infinite power and goodness encourage him to take the necessary footsteps. To follow in this way is to walk with God, to commune with Spirit, to refresh oneself with the mercy that cometh down as the dew from heaven, to have fellowship with Christ Jesus, to gain an intimate insight into his sayings and his works, and to be useful here and now to those with whom we associate. A career which opens in this way will never close, but will continue forever, developing more and more the truth about the infinite number of ideas which constitute God's universe.

JUST WHAT ITS NAME IMPLIES.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that its name implies. There has never been a case reported of cramp colic, cholera morbus or dysentery where this remedy was used that it did not give prompt relief. It is as good for the child as for the adult and all danger from cholera infantum will be avoided if this medicine is promptly administered. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

The Salvation Army annual Sunday school Outing will take place next Tuesday, June 27, at Kaplalani Park. Cars will leave Liliha and School streets and King and Nuuanu streets at 9:30 a. m. sharp, and a large attendance is expected. These annual outings given by the Army entail considerable work, as luncheon is provided for the children, and to cater to several hundred hungry little stomachs is no small task. There will be games and races and all the delights of a long, happy day out-of-doors.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANETZKI, 2903 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit. Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pink-
